## MESSAGE FROM THE GOVERNOR.

A message from the Governor was received, by the hands of Mr. Charles J. Atkinson, his Recording Secretary, being his annual message and its accompanying documents.

The annual message was read, as follows:

EXECUTIVE DEPARTMENT, }  
STATE OF ALABAMA, }  
Montgomery, November 17, 1873. }

*Gentlemen of the Senate*

*and House of Representatives:*

Before we proceed to the consideration of our duties as rulers of the State of Alabama, let us lift our hearts in fervent prayer to Almighty God, that our actions may be so guided by His spirit that they may build up the waste of our beloved State, tranquilize the feelings of our people, and be acceptable to His holy purposes. For it is only by living in accordance with His laws that we can permanently prosper—physically, mentally, morally, or politically. The chastisement which we have received at His hands during the present year, in the pestilences which have devastated our cities, and in our crops, stunted by the plagues which have devoured them, and in the financial convulsions which have swept sustenance from the laborer, as well as profits and fortune from the capitalist, should teach us dependence on Him, who holds the Universe in the hollow of His hand, and that the only true wisdom and wealth are in the knowledge and obedience of His will.

I have the honor to submit to your consideration herewith copies of the reports of the Auditor, the Treasurer, the Commissioner of Industrial Resources, the Superintendent of Public Instruction, and from the other public institutions of the State.

## FINANCE.

The subject of the State finances demands your most serious and thoughtful consideration. The embarrassment surrounding our pecuniary engagements and the means of complying with them, though serious before, are of course enhanced by the crisis in money circles. We are still suffering the crisis commencing over two years since, in our experiment of constructing important lines of railroads, mainly by State credit. The theory that a railroad, while in progress of construction, could pay the interest on the bonds issued to build it, has been shown to be false; and this failure of the railroads to pay interest on the bonds, endorsed by the State, devolves on the State a debt, the means for paying which have not been provided for in her assessment of taxes. The State has been in default in the payment of interest on some of these endorsed bonds since January 1870.

The immediate effect to the injury of the State of this failure to pay the interest on these endorsed bonds, was to impair the market value of all her securities, to render loans impracticable, except at great sacrifice, and eventually to render her bonds unsaleable at rates that could be entertained.

It was hoped by this department, that the prompt payment of the interest on the bonds of the State, negotiated for its own loans, would keep that line of securities on a footing of recognized value, and afford the means of paying the past due coupons on the endorsed bonds, until a better day would dawn on the railroads themselves, and thus tide over our difficulties. But wall street refused to recognize a compliance by the State with her financial obligations as long as any coupon of an endorsed bond of the State was not provided for on maturity.

The whole of the last issue of State bonds could have been sold for eighty-five cents on the dollar, to parties interested in the endorsed bonds of the railroads, provided all past due coupons were paid. But the State did not have a sufficiency of bonds to discharge all these coupons and pay the interest on the direct bonds of the State. If the act of the Legislature, entitled "An act to maintain the credit of Alabama," approved February 25, 1873, had authorized the issue of two millions of bonds, there would have been a sufficiency of funds at the command of this department to have paid off all the interest

past due and accruing on both the direct and endorsed bonds of the State during the financial year just closed. But the Legislature having authorized the issue of an amount inadequate to meet all the interest debt of the State, no sale could be made of the bonds authorized to be issued. This department has been unable to sell for money any of the State bonds during the present administration, being forced to follow in the footsteps of its predecessor in raising money by the hypothecation of the securities of the State as it best could.

I recommend that for the purpose of redeeming the bonds of the State that are now hypothecated, that a new issue of bonds be authorized in such sums as the General Assembly shall find to be necessary, redeemable at the pleasure of the State, to run not exceeding ten years, bearing interest at 8 per cent, the coupons to be receivable in all dues to the State, in denominations of one hundred dollars or more, each. Such a security will command a home market, and it is hoped will inaugurate the domestication of our debt. Much surplus money in the State, timid of investment in new enterprises, might seek such a security, and the denomination of the bonds would present a rival security to the banks of deposit which pay interest to its depositors. I would respectfully suggest, further, that all trustees be authorized to invest fiduciary funds in these bonds, by an act properly guarded. The negotiation of such a security would relieve the State from its present embarrassment in respect to its hypothecated securities, and enable it to use its means for the future according to exigencies. Such an issue of bonds should be accompanied with an act, that the Auditor's warrants should no longer be received in payment of the taxes of the State. The funding of the warrants now outstanding would afford great relief to the present wants of the State.

It is believed that the past due coupons of the Alabama and Chattanooga road, together with the approaching January interest, can be funded in bonds of the State, at ninety cents in the dollar, without cost or commission to the State. I earnestly recommend the passage of such acts as may be necessary to accomplish this adjustment of the outstanding interest. When it is remembered that the credit of the State fell with the failure to pay the interest on those bonds, and that they embrace the bulk of the unpaid interest of the State, it is believed that no

measure can be adopted, so well calculated to restore the credit of the State as the adjustment of this interest on terms satisfactory to the holders of the coupons.

Unquestionably the embarrassment of the State growing out of her complications with the unfinished railroads in her borders is very serious. Yet it must be remembered that other States have encountered the same troubles in a spirit of like enterprise. The present development and prosperity of the great State of Pennsylvania has been preceded by the depression of her finances and credit, in her assistance to her railroad enterprises, even greater than that which now presses on our State. The development of our vast mineral resources could never have been attained but through the instrumentality of railroads. Land-locked and remote from all markets, transportation was essential to render them a source of wealth. The prize to be attained is worth the sacrifice. When capital and skilled labor shall, at no distant day, utilize the minerals, water power, and lumber of our State, which were all worthless without means of access to market, our cotton crop will be only a secondary and subordinate source of wealth.

#### TAXATION.

Our experience during the financial year which has just closed, inclines me to adhere to the recommendation which was made in my special message to you, during your last session, as to the increase in the rate of taxation, which is necessary to meet the wants of our State treasury. Its adoption now will place us, after another year, in possession of a revenue which is very much needed at the present time. The State, as you know, has not been able to sell her bonds for money, on satisfactory terms, for two years. The failure of most of our railroads, whose bonds have been endorsed by the State, to pay the interest thereon, and the wide-spread money-pressure that now banishes all confidence from business, teach us that we can have no reasonable expectation of deriving money from any source except that of taxation. It will be necessary, therefore, for you to revise with the utmost care your laws on the subject of taxation, and carefully explore and utilize all sources of revenue not now embraced in the same.

And I again urge on your attention the propriety and

necessity of a State Board of Equalization, to secure the purpose contemplated by section 1, article IX, of the State Constitution. The present report of the Auditor furnishes additional evidence showing the necessity for such a board, not only that assessments may be in exact proportion to the value of property, as the constitution requires, but that reasonable calculations of the yield of our tax bills may be realized in collections.

The law in respect to the taxes paid by insurance companies should be most carefully revised. The law, as worded, allows such companies—both Life and Fire—to escape a large part of the taxation that should be borne by them. In this connection, I would further suggest that all non-resident corporations, engaged in the insurance business in this State, whether against death or fire, should be made to deposit with the Treasurer of the State such security for the payment of the losses on their policies to our citizens as will be a reasonable protection to them against loss. There should be a minimum deposit required of each company, and an additional amount in proportion to the sum total of their policies in the State.

Your laws in respect to the disposition by re-sale of lands which have been purchased by the State at tax sale need revision. The State has quite a large amount of taxes locked up in such lands. Some officer should have authority to re-sell the same, on application of purchasers, for taxes, interest and expenses.

#### ECONOMY.

There is no lesson taught us so forcibly by all our surroundings as economy in every branch of the State Government, and this should be rigidly enforced in all cases, circumscribed alone by the necessities of the public service. Its benefits will be felt, not only in our State finances, but the example will produce a spirit of good management and thrift in the community. When the State, by its example, does honor to a virtue, it becomes more acceptable to the community.

#### RAILROADS.

The condition of the railroads, for which the State has endorsed bonds, is the cause and key of our troubles in

credit and finance. Since your adjournment nothing has occurred to render the general outlook more favorable.

The Alabama and Chattanooga road is in the hands of Receivers, appointed by the Circuit Court of the United States, sitting at Mobile—Mr. Ingram not having complied with the act of the Legislature authorizing the sale to him, and no other purchasers having offered to accept the property on the same terms. There has been a change in the Receivers of the road, by what is supposed to have been a voluntary resignation of Messrs. Rice and Haralson, and the appointment of Messrs. Murdock and Elliott as successors, who have just assumed control of the same. This Department has no information whatsoever of the condition, management, receipts, disbursements, outstanding certificates, or other matters connected with said road, nor has it any authority to obtain the same.

The South and North road has cancelled the bonds of that corporation endorsed by the State to the amount of three millions six hundred and thirty-two thousand dollars, which have been disposed of as the law directs, and is now entitled to the benefit of the act entitled "An act to provide for the substitution of State bonds to the amount of \$4,000 per mile, in lieu of State endorsement of bonds of the various railroad companies of the State," approved April 21, 1873. The bonds authorized by this act have not been, but will be, issued as soon as received. Though all the roads entitled to the benefit of this act, except the East Alabama and Cincinnati road, have notified this Department of their intention to accept the provisions of the same, none of them have taken any other step in that direction known to this Department, except the notice of their acceptance of the terms of the act.

No settlement has yet been made with the Montgomery and Eufaula Railroad under the authority of an act entitled "An act to authorize the Governor to settle with the Montgomery and Eufaula Railroad Company," approved April 13, 1873, though this Department is advised by those in the interest of that road, that the settlement authorized will soon be made.

It was believed that a purchaser was found for the Selma and Gulf Railroad, on terms that would indemnify the State, and advertisement was accordingly made to complete the title to the same by a sale under the mortgage to the State for the \$40,000 00 loaned said road.

But all this has been postponed by unavoidable causes, so that its consummation has not been effected. That road is now in the hands of receivers, appointed by the Selma Chancery Court, and is sought to be subjected to a lien of certificates to be issued, and disbursed by the receivers, whose lien will be paramount to the lien of the first mortgage bonds. I have instructed the attorneys for the State to resist this step in every legal manner, as I conceive it to be fraught with the sum of all evils to the railroad interest, and will result in destruction, partial or total, of the first mortgage lien of the State on railroads, without any compensating benefit to the State or roads concerned. It is but the step which will be followed by some interest connected with every unfinished railroad in the State. If legislation is necessary to stop this ruin of that class of the State securities, I recommend the enactment of any law that may attain that end.

#### COMMISSIONER OF RAILROADS AND INSURANCE COMPANIES.

I recommend the enactment of a law creating the office of Commissioner of Railroads and Insurance Companies. This was the subject of your consideration during your last session, and was left with the unfinished business. All departments of the State Government, and more especially the General Assembly, are in need of the statistics which such an officer would obtain for their information and intelligent direction. Information in respect to insurance companies is important, as well for the proper imposition of taxation, as for the security and information of that large class of our citizens who hold their policies, and the wide range of statistical knowledge of the various railroads of the State cannot be gathered without some legislation, imposing the duty of its collection on some officer of the State. And these vast miracles of modern invention now involve so much of life and property, and tend to infringe on human rights in so many respects, that the duty of intelligent legislation can no longer be performed without a full knowledge of all facts necessary to their just and careful supervision.

#### SWAMP LAND FUND.

In the successive administrations from 1861 to 1871, there have been several boards and sets of officers em-

ployed by the State to perform important and valuable services respecting the swamp and overflowed lands of the State. The question of compensation to these different boards has been before this Department, and has also been before the General Assembly, and one of the boards has filed a bill in chancery against the State, in the court at Selma. The difficulty is to determine the amount of compensation that each board is entitled to. No tribunal can do this without having all parties in interest before it, and ascertain by evidence, that is open to contest by the other boards, the proportion of labor performed by each, and of compensation to which each is entitled. The per cent. of compensation being limited by law, this amount should be distributed among them according to the proportion of services rendered. I recommend the enactment of a law requiring the different boards to appear before the chancellor of this division at the suit of the State to a bill, in the nature of a bill of interpleader; that the chancellor adjust by the machinery of that court the share to which each board is entitled. That each board shall disclose the compensation it has received heretofore, and that if the same has been out of proportion to the services it has rendered, that the individuals shall refund any excess. I know of no other method of adjusting this matter equitably. If the claims of all the boards and officers are paid, it is believed that the fund will be exhausted in so doing.

#### PENITENTIARY.

The management of your Penitentiary is at present on a plan partially only experimental and provisional. The agricultural branch, though not likely to be a source of profit for the present year, from causes that were general in that portion of the State, will, it is hoped, yet be remunerative. The hands within the wall of the Penitentiary, engaged in manufacturing under contract, are producing articles which must command ready sale, where such things are needed. Other inexpensive branches of manufactures might be introduced to advantage for the employment of such convicts as must be kept within the enclosure. Much progress has been made by the present Warden in the repair and improvement of the Penitentiary. The increased number of convicts in comparison to former years, and the difficulty of caring for them

with the combined rigidity and humanity that justice and charity demands, devolves on the General Assembly a duty of great delicacy.

#### INSANE ASYLUM.

The managers of the Insane Asylum are entitled to the highest commendation for their excellent management of that meritorious institution. Its order, neatness and comfort are unexceptionable. The pecuniary difficulties which they have encountered have been of such a nature that it is confidently believed that no other institution in the State could have survived them. I earnestly urge upon the consideration of the General Assembly to make some certain provisions whereby the warrants to this institution shall be paid, if need be, in preference to other debts due by the State in the future. The wants of its helpless and unfortunate inmates present an appeal to christian civilization which should place their assured comfort above the fluctuations of financial troubles.

Your institution for the Deaf, Dumb and Blind deserves your most considerate and sympathetic regard. The ushering of these unfortunate people in the region where some rays of light from the great world, present and future, reaches their understandings and hearts, is a great boon.

#### EDUCATION.

Your special attention is invited to a careful supervision of the laws and machinery which govern and control the subject of education. It is respectfully submitted, that the benefits which our present system has conferred on the youth of the State are not in proportion to the great expense which attends it. Its most zealous advocates cannot deny that it has been in operation long enough for a mere experimental test. The number of officers and the expense are too great for our sparse population. The uncertainty and infrequency of common schools; the absorption of the revenues of some of our higher schools by the useless multiplication of professorships, not needed for the instruction of pupils; the complication of the machinery, placing the supervision of all these interests so far from your immediate consideration; the great expense entailed upon our impoverished reve-

nues by the unnecessary multiplication of salaried officers, diverting so large a portion of the public funds from the cause of education, without any corresponding benefit, are matters demanding your prompt attention. It is believed that both economy and efficiency demand a thorough revision by you of all our laws on the subject of education, both fundamental and statutory.

Your State certificates still remain at considerable discount, though receivable in payment of taxes, and though the amount is so small in comparison to the aggregate taxation of the State. The financial panic defeated the execution of an arrangement which would have been completed for rendering a considerable portion of them bankable, much to the relief of the State, as well as of the business community. At present they only give us the evil of a depreciated currency, and afford the means of easy speculation on the wants of the needy creditors of the State. In connection with the issuing of a new line of State securities for domestic use, I recommend that they be destroyed as they are taken in, under such careful regulations as becomes so important an act.

I beg leave to call your attention to the 27th section of article 4 of the Constitution of the State. The accumulation of annual statutes since the promulgation of the Revised Code of Alabama renders it highly expedient that the statutes of the State should be codified.

The administration of your criminal law in the cost of keeping those who are indicted, and held under arrest for misdemeanors, before trial, is a source of great expense to the State. If this cannot be remedied, it may be mitigated at least.

Since your adjournment, Hon. Pat Ragland, Secretary of State, has departed this life, and I have appointed Hon. Neander H. Rice, of Florence, as his successor.

In conclusion, gentlemen, let us possess ourselves, so to act, that when the great future of our State is developed, we may look back to this crisis with the pleasant recollection that though she was beset with difficulties and surrounded by embarrassments and dangers, that our faith was strong in her grand destiny, and that we did not falter in the path of duty.

I have the honor to be,

Your obedient servant,

DAVID P. LEWIS,  
Governor.

On motion of Mr. Pennington—

Two thousand copies of the message was ordered printed, with the accompanying documents, except the Auditor's report and Treasurer's report.

HON. S. H. MURPHY, DECEASED.

Mr. Hamilton, from the committee to prepare suitable resolutions upon the death of Hon. Steven H. Murphy, reported as follows :

Since the adjournment of the Senate of Alabama, death has removed the Hon. Steven H. Murphy, one of its members from the scene of his labors, and the face of our former fellow Senator no longer appears amongst us. His work is over ; all that remains for his former associates, while with sorrow they acknowledge the decree of their Supreme Ruler, is to place on record their sense of respect for the departed.

Mr. Murphy served with credit to himself during one session of the Senate. He was careful of the interests of his constituents and regular in the performance of his public duties ; he therefore became entitled to, and gained, the respect of his fellow members in the Senate.

*Resolved*, That the Senate of Alabama has heard with regret of the death of the Hon. Steven H. Murphy, late Senator from the 4th district, and county of Madison. ## MESSAGE FROM THE HOUSE.

HOUSE OF REPRESENTATIVES,  
November 20, 1873.

*Mr. President:*

I am directed to inform the Senate that the House of

Representatives has originated and passed the accompanying

# JOINT RESOLUTION.

ROBERT BARBER,  
Clerk of House.

# FEDERAL RELATIONS.

Mr. Goodloe, from the Committee on Federal Relations, to which was referred House joint resolution—

Relating to alleged outrages upon citizens of the United States by the Cuban authorities, submitted the following

# REPORT.

*To the Honorable President and Senate of Alabama :*

The Committee on Federal Relations to which was referred a joint resolution, "relating to alleged outrages upon citizens of the United States by the Cuban authorities," have instructed me to report that they have had the same under consideration, and while as citizens of the United States and State of Alabama, they condemn the cruel course reported to have been pursued by the Cuban authorities towards the persons captured by the Spanish gunboat, *Tornado*, on the Steamer *Virginus*, as inhuman and contrary to the principles of our modern civilization, they do not find any warrant for the Government of this State to take any action in this case.

No action by Alabama could have any effective operation whatever. The whole subject falls within the powers and belongs to the duties with which the Government of the United States is, by the constitution charged. The officers of that Government have shown no disposition to neglect the high duties with which they are charged. On the contrary, it is understood that the President of the United States is acting with great promptness in putting its military arm in a condition to act with efficiency in case the reasonable demands of the people of the United States, through their Government, for redress at the hands of Spain, are not complied with.

The Congress of the United States will also be in session at an early day, and have full power to enact any law which the dignity of the Government and the security of the citizen require.

In consideration of these suggestions the committee recommend that said joint resolution be laid on the table.

The report of the committee was concurred in.

STATE OF ALABAMA,  
EXECUTIVE DEPARTMENT, }  
Montgomery, November 25, 1873. }

*Gentlemen of the General Assembly of the State of Alabama :*

I have the honor to transmit herewith the report and supplemental report of James L. Tait, as Receiver of the lands of Alabama and Chattanooga Railroad Company, appointed by the chancery court of Etowah county, under a bill filed during the administration of my immediate predecessor. Your attention is called to the interesting and important matter contained in the report.

#### MESSAGE FROM THE GOVERNOR.

STATE OF ALABAMA, }  
EXECUTIVE DEPARTMENT, }  
Montgomery, November 26, 1873. }

*Gentlemen of the Senate of the State of Alabama :*

In obedience to your resolution of 25th instant, calling upon me to furnish your honorable body such information as may be in my possession concerning the tender of resignation of the Hon. A. P. Wilson as the Senator from

Montgomery county, together with a copy of any correspondence I may have pertinent to such resignation, I have the honor to say in reply:

That at some time not far from the adjournment of the last session of the General Assembly, Senator Wilson laid on my table two papers, which he stated to me contained a conditional resignation of his seat in the Alabama Senate.

These papers were handed by me to my Recording Secretary, to be filed away in the place allotted for such papers. I did not read the papers, and know their contents from the statement of Mr. Wilson alone.

No copy, record or memorandum touching the same was made in this office.

On the application of Mr. Wilson, before the election to fill vacancies in the General Assembly was ordered, these papers, at the request of Mr. Wilson, were surrendered to him.

I have no means of arriving more accurately than above at the date of either the filing or withdrawing of the resignation.

No correspondence was ever had between Mr. Wilson, or any one else, and myself respecting the said resignation, consequently no copies can be furnished.

The only other "information" that I have respecting the said resignation, is the declaration of the condition on which Mr. Wilson declared that he resigned.

He stated, on filing the papers, that he would not resign the office of Senator, unless the construction of the rules of the civil service of the United States rendered his continuance in that office a ground of vacating his office of postmaster at Montgomery.

I have no further knowledge or information on the subject inquired of in said resolution.

Your obedient servant,

DAVID P. LEWIS,  
Governor.

JUDICIARY COMMITTEE.

By leave, Mr. Hamilton, from the Committee on the Judiciary, made the following

REPORT:

*To the Hon. the President and Senate of Alabama:*

The Committee on the Judiciary, to which was referred a "joint resolution proposing amendments to the constitution of Alabama," and also "joint resolution proposing amendments to the constitution of the State of Alabama," and also resolutions entitled "resolutions providing for a call of a convention to reduce the expenditures of the State Government," have had the same under consideration, and direct me to report, that in accordance with the instructions contained in the last named resolutions, they have prepared and now submit to the judgment of the Senate, in the form of joint resolutions, a series of amendments to the present constitution.

Your committee, while it admits that a more consistent and harmonious system and organic law might be framed by a convention charged with the whole subject, can not

in the present condition of public affairs recommend the calling of a convention to amend the constitution.

Your committee, therefore, recommend that the accompanying joint resolutions be substituted and adopted, in place of those referred to this committee, and that those so referred to your committee be laid on the table.

Respectfully submitted.

P. HAMILTON,

Sir—I beg leave most respectfully to call the attention of your Excellency to the second section of the act of the last Congress, entitled “An act for the apportionment of Representatives to Congress among the several States according to the ninth census,” approved February 2, 1872. Said section is as follows:

“Section 2. That in each State, entitled under this law to more than one Representative, the number to which said State may be entitled in the forty-third and each subsequent Congress, shall be elected by districts composed of contiguous territory, and containing as nearly as practicable an equal number of inhabitants, and equal in number to the number of Representatives to which said State may be entitled in Congress, no one district electing more than one Representative; *Provided*, That in the election to the forty-third Congress, in any State which by this law is given an increased number of Representatives, the additional Representative or Representatives allowed to such State may be elected by the State at large, and the other Representatives to which the State is entitled by the districts as now prescribed by law in said State, unless the Legislature of said State shall otherwise provide before the time fixed by law for the election of Representatives therein.”

#### VETO MESSAGE.

Mr. Cooper called up the Governor's veto message, which read as follows:

STATE OF ALABAMA, }  
 EXECUTIVE DEPARTMENT, }  
 Montgomery, December 9, 1873. }

*Gentlemen of the Senate:*

I feel it my duty to return to you without my approval the bill originating in your body entitled "an act declaring the lands of Mitchell Davis of Cherokee county, which are divided by the line dividing the counties of Cherokee and Etowah to be deemed and held as being in Cherokee county."

This bill directs the taxes collectible on so much of said lands as lie in Etowah county to be paid into the treasury of the county of Cherokee. If the principle of this bill is a correct rule of legislation, then a general law should recognize it, and make it applicable to all cases where the line of adjacent counties interests a tract of land owned by a citizen and permit him to pay into the treasury of the county of his residence the tax for the entire body of such real estate. But it is respectfully submitted, that the mere convenience of the tax payer is not a sufficient reason for depriving the adjacent county of the taxes on lands within its limits, and under the supervision and protection of its county legislation and control. The amount of the tax diverted from the county of Etowah by this bill may be small, and not subject the county to any inconvenience. The principle is no less erroneous on that account.

This bill is highly illustrative of the vicious principles which underlie special legislation. While a bill to appropriate any given per cent. of the county tax of Etowah to the treasury of Cherokee would not be entertained for a moment by the General Assembly when this proposition is plainly stated, yet an act is passed, for the personal convenience of some important citizen, which rests on the same proposition.

The gravity of the principle involved in the act must be my apology for troubling you with this communication.

I have the honor to be,

Your Ob't. Servant,

DAVID P. LEWIS,

Governor.

On motion of Mr. Parks—

The message was referred to a select committee of three

# MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor by Mr. Atkinson, and read :

EXECUTIVE DEPARTMENT, }  
STATE OF ALABAMA, }  
Montgomery, December 15, 1873. }

*To the Honorable Senate of the State of Alabama :*

GENTLEMEN—I have the honor to return to you the bill entitled “An act to amend an act entitled ‘An act to incorporate the National Hotel Company of Selma,’ ” with my objections to the approval of the same.

The third section of the said bill provides that “said company may give musical entertainments, charades and tableaux, and distribute a part of the proceeds arising from a sale of the tickets thereto, amongst the holders thereof, in such manner and by such means as to the said company shall seem proper.”

It is respectfully submitted that this power opens a field of operation for chance and lottery that will be pushed to its utmost tension, for the gain of the holders of the franchise. It will beget and develop a spirit of money-making by sacrificing on the shrine of chance the hard earnings of poor people, that will not only be highly demoralizing, but altogether unfavorable to the thrift of labor by the sweat of the brow. The hopes of rapid gain, without labor, though always delusive to the masses, is a most successful snare for the laity.

But the most objectionable feature of this bill is that, being a grant of charter to a private corporation, it cannot be repealed by the Legislature, whatever may be the injury resulting from the same. If this authority were limited to some fixed time, for some commendable purpose, or if the power were reserved by the General Assembly to repeal the same, at its discretion, much would be removed that is objectionable. But I cannot sanction

the engrafting of such clause on an ir repealable charter, which may inflict many evils on the community.

I have the honor to be,

Your Ob't. Servant,

DAVID P. LEWIS,

Governor.

The Senate proceeded to reconsider the bill, and

The question being put—

Shall the bill pass, notwithstanding the veto of the Governor?

It was decided in the negative.

Ayes 4, noes 18.

Ayes—Messrs. Cunningham, Curtis, Driesbach and Haralson—4.

Noes—Messrs. Carmichael, Cobb, Cooper, Doster, Edwards, Ervin, Goodloe, Grayson, Hamilton, Harris, Hewitt, Leftwich, Little, Miller, Pennington, Snodgrass, Terrell and Walton—18.

#### CONCURRENCE.

Senate concurred in House amendment to

Senate bill—

Relating to the term of office of the several tax collectors of this State.

#### JOINT COMMITTEE.

Mr. Carmichael, from the Joint Committee "To enquire into the irregularities alleged against the Department of Education by the Commissioners appointed by His Excellency, the Governor," submitted the following report, which was read and ordered to be spread upon the Journal of the Senate:

#### REPORT.

*Mr. President:*

The joint committee created in pursuance to a joint resolution of the General Assembly of Alabama, authorizing the appointment of a joint committee of the two Houses of the General Assembly, charged with the "duty of inquiring into the irregularities alleged against the Department of Education, by the commissioners appoint-

ed by His Excellency, the Governor," respectfully submit, that they have confined their investigation entirely within the scope of the original resolution, a want of time absolutely forbidding their acting in pursuance to the amendment to the original resolution, and therefore respectfully submit the following as the result of their investigation, together with their conclusions based thereon :

In the month of May or June, 1873, there was paid into the Educational Department, on account of the sixteenth section funds, the sum of five hundred and sixty-five dollars, which was not certified and paid into the Treasury, until December 10, 1873, a period subsequent to the commencement of the investigation by this committee. That said sum should have been certified and paid into the Treasury before the end of the fiscal year, September 30, 1873, there can be no doubt, but a failure to so pay it, within the period indicated, is accounted for by the Superintendent with the statement that he was necessarily absent from his office in consequence of sickness in his family, from about the first of June last, until the beginning of the present session of the General Assembly. Said sum is confessed to have been received by the Educational Department in current funds of the United States, and was paid into the Treasury in what is denominated "State certificates."

During the Superintendent's absence, Mr. Dalton, the chief clerk in the Department of Education, employed Mr. Levey, an employee of the office, to print certain "letter-heads" for the Department, paying therefor out of the Educational contingent fund, which is regarded by the committee as altogether inexcusable, in view of the fact that there is a law of the State under which a State printer is elected, whose duty it is to do the public printing for all the Departments, including that of Education.

The committee have carefully examined the accounts and vouchers in the matter of the "Bradshaw settlement," and are forced, by the evidence before them, to the irresistible conclusion that a large number of vouchers used by Bradshaw on former settlements were abstracted from the Department of Education, by some person or persons unknown to the committee, and were used again by Bradshaw's administrator in his settlement with the Department, made September 18th, 1873.

In this connection, it may not be amiss to state that Bradshaw's administrator, Dr. Cloud, late Superintendent of Public Instruction, and D. L. Dalton and J. M. Levey, clerks in the Department, were the persons present when said settlement was made.

That a notable attempt has been made to perpetrate a monstrous fraud upon the Department of Education, there can be no sort of doubt, as may be seen from a statement of the account and vouchers of Bradshaw herewith submitted, as made by the committee, and made a part of this report; and while the committee do not charge fraud and corruption directly upon any one, yet they respectfully submit, that the fact that a large number of the vouchers used in the settlement of September 18th, 1873, had been used in former settlements, must necessarily have been known by any one having the books and papers of the Department before them.

While the committee are forced, by the facts in their possession, to condemn the conduct of those employed as clerical aids in the Department of Education, as evidencing a want of integrity, or an almost total want of capacity, yet justice to Col. Speed, the Superintendent of Public Instruction, demands of them to say that when the "Bradshaw settlement" was made, he was unavoidably absent from his Department, and had nothing whatever to do with it, and since the investigation by the committee began, has afforded them every aid and facility within his power to enable them to make it thorough and complete, as to the matters involved in the report of the commissioners appointed by His Excellency, the Governor.

The committee having been called upon by J. M. Levey, a subordinate in the Department of Education, to protect him and do him justice, appointed a sub-committee, consisting of Messrs. Martin and Draxler, to wait upon Mr. Levey and procure from him a written statement of his connection with, and knowledge of said settlement, which statement is herewith submitted and asked to be made a part of this report.

While the committee have arrived at the balance due the Department of Education by Bradshaw, as may be seen from the statement herewith submitted, yet they wish to be distinctly understood, that in the examination of the matter they did not undertake to pass upon the

validity of the vouchers submitted, but treated them as if proper for all the purposes of the investigation.

The committee has made but a cursory examination of the general management of the internal affairs of the Educational Department, yet it has been sufficient to convince them that there is such a want of system in its general management as must necessarily keep it involved in inextricable confusion.

In conclusion, the committee respectfully beg leave to state that they have devoted all the time within their control to the discharge of the duty incumbent upon them, and that the investigation, as to the matters involved in the report of the commissioners appointed by His Excellency, the Governor, has been as full and complete as the time at their command would admit of.

All of which is respectfully submitted.

J. M. CARMICHAEL, 33d District,  
Chairman ;

J. M. MARTIN, 9th District ;

J. E. BROWN, of Jackson ;

J. M. MOSS, of Madison ;

FRANK DRAXLER, of Mobile.

MONTGOMERY, ALABAMA, }  
December 14, 1873. }

*Hon. John M. Martin, Chairman Joint Committee :*

Sir—After offering my grateful thanks to your committee for the kindness shown me in respect to the matter now being investigated in the Department of Education, I most respectfully submit the following statement of my knowledge of the settlement with the administrator of R. Bradshaw, deceased, late superintendent of education for Sumter county.

About the 18th day of September last, there was unusual excitement in the city of Montgomery, consequent upon the announcement that yellow fever had made its appearance here. Large numbers of citizens were leaving daily in great haste ; and several of the officers and employees of the State Departments had also left.

Mr. D. L. Dalton being chief clerk in the Department of Education, I asked and obtained leave of absence, for the purpose of making arrangements to remove my family from the city during the epidemic. This was about

the 17th or 18th of September. After obtaining leave of absence, I called every morning at the office of the Superintendent of Public Instruction to see if there was any work for me to do. Whenever Mr. Dalton had any work to do, I did it, and went about getting my family away. One morning (I think it was the 18th of September) I called at the office to see if there was any work for me; then Mr. Dalton informed me that Mr. Bradshaw had been in the office the day before for the purpose of settling his father's account; that he had gone out to get Dr. Cloud to assist at the settlement; that he would be at the office that morning, and I must remain. Shortly thereafter, Mr. Bradshaw called at the office, accompanied by Dr. Cloud. I was introduced to Bradshaw by Mr. Dalton. After a few moments consultation, Mr. Bradshaw exhibited a large lot of papers, purporting to be receipts for school moneys expended by his father. These papers were examined by Mr. Dalton for the purpose of allowing such of them as might be considered valid. Such of them as were accepted as valid vouchers were noted down by me in accordance with Mr. Dalton's orders. When Mr. Dalton would allow a paper, I put down the amount on a blank sheet, until enough had been thus allowed to balance debit entries on the book where I found the account. I have omitted to state that when Mr. Bradshaw and Dr. Cloud called at the office, Mr. Dalton told me to examine the books and see how much Bradshaw's account was behind. After searching for some time, I found some entries, pointed them out to Dalton, and he accepted the same as a basis upon which the vouchers were allowed. After sufficient papers had been allowed by Mr. Dalton as valid, he instructed me to enter the credits which now appear upon the books. I did so. After Mr. Dalton had ceased to examine the remaining papers of Bradshaw, he instructed me to write out a check for \$72.64, which was to close the settlement. That check remained in the office safe about one month, to the best of my recollection, when Mr. Dalton instructed me to carry it to the First National Bank for collection. I did as I was directed, and have not since seen the check. After these vouchers had been allowed, Bradshaw exhibited a large lot of other papers, saying they were also receipts for the same period.

I beg permission to state to the committee, that during my term of service in the Department of Education, Col.

Speed was absent on account of sickness nearly the whole time; that during his absence I obeyed the chief clerk in every order, the same as if given by Col. Speed himself; that I had no right to accept or reject any paper presented at the office; that I did all the work in strict accordance with orders of Mr. Dalton; and that every line written by me, and every entry made by me, was in accordance with orders of Mr. Dalton. After consultation with friends, whose opinions and advice I honor above any other (which I did in accordance with advice by yourself,) I must humbly beg your committee to examine my work in the office, for the purpose of ascertaining my efficiency for the subordinate position which I hold. I also must beg leave to submit the following statement:

A discrepancy appears in the Auditor's report as compared with the Superintendent's report, in relation to the sixteenth section fund. During my absence from the office, Mr. Dalton made a settlement with J. T. B. Ford, of Escambia county, in reference to certain sixteenth section purchases. Mr. Dalton never informed me of this settlement (that I might make proper entries) until the above reports had been made. Col. Speed knew nothing of this settlement, as he was absent.

During my absence from the office at another time, Mr. Dalton issued certificates to Sparta normal school. He never informed me (that I might make the proper entries) until your committee had visited the office of the Superintendent of Public Instruction.

In a statement made by me to your committee while in said office, I asserted that a receipt for \$2,900 given by M. C. Kinnard to R. Bradshaw was seen by me among the old papers with which the new ones were filed. That receipt appears now to be missing. I can only state to the committee that I was absolutely certain that I read that receipt when the recent settlement was made.

When the settlement was made with Mr. Bradshaw, I placed the papers allowed by Mr. Dalton in three separate envelopes, marked them in ink, giving the amount of dollars and cents, date of file, the year for which they purported to be vouchers, and filed them with other papers of same periods. Those envelopes were not seen by your committee, because they had been substituted by others, labelled by Mr. Dalton. During my absence from the office at another time, Mr. Dalton issued certificates to the superintendent of Talladega county, and failed to

inform me (that I might make the proper entries) until the report of the Superintendent of Public Instruction had been made. In all the discrepancies thus appearing I humbly beg your committee to inquire into, that justice may be done me, and the facts known why the books of the department vary from those of the Auditor.

I have made a candid and truthful statement of all I know concerning the Bradshaw settlement. I have stated all that was done and said in my presence, Although I thought at the time that the settlement ought not to have been made, and even suggested that Col. Speed ought to be present, yet I had no authority in the matter whatever, nor did I assume any.

I endeavored to discharge my duties as a subordinate faithfully, and never, in one single instance, did I fail to obey any order given me by Mr. Dalton. He informed me that he had full authority over all the affairs of the department, and I so recognized him. He signed all the papers officially, and signed his name frequently to official communications as chief clerk.

Again tendering my grateful thanks for your consideration towards me, I have the honor to be,

Very respectfully,

Your obedient servant,

J. M. LEVEY.

## MINORITY REPORT.

Mr. Dereen, from the said committee, submitted a minority report in said matter.

The majority and minority reports were then read, together with the evidence submitted by the committee.

## MAJORITY REPORT

From the Committee on Privileges and Elections.

*Mr. President:*

The Committee on Privileges and Elections, to which was referred the petition and memorial of V. Gayle Sned-icor, contesting the seat of Charles W. Hatch, representing the Senatorial District composed of the county of Hale, have had the same under consideration, and after an examination of the evidence presented to them, instruct me to report that in the opinion of the committee Charles W. Hatch received a majority of the legal votes cast at a special election for Senator for the 23d Senatorial District held on the 11th day of November, 1873.

A majority of the committee instruct me further to report, that in their opinion the said C. W. Hatch is ineligible to the position of State Senator which he now holds, for the following reasons, to-wit: That as a postmaster at Greensboro, Alabama, he received moneys belonging to the United States Government, and that he failed to account for and pay over the said moneys; and that in the opinion of the committee the said C. W. Hatch is ineligible to a seat in the Senate under section 20, article IV, of the State Constitution. They therefore instruct me to report that in the opinion of a majority of the committee the seat of Charles W. Hatch should be declared vacant.

Which is herewith submitted, with the accompanying evidence.

CHAS. S. G. DOSTER,  
Chairman.

## MINORITY REPORT.

In the matter of the contest of the seat of C. W. Hatch.

*To the Senate of Alabama:*

The undersigned members of the Committee on Privi-

leges and Elections, being unable to agree with the majority of the committee in the various rulings, or in the conclusions reached by them, or in the reasoning upon which said rulings or conclusions are based, beg leave to submit herewith a minority report.

In the rulings of the majority of the committee, as well as in the conclusions attained by them, they have denied and defied the following considerations :

1st. That the law regulating contested elections is as binding upon the members of either house of the General Assembly, whether sitting as a committee to gather evidence for one of those houses or as members of either house, as upon the humblest citizen in the land.

2d. That a contested election case is in the nature of a suit between the contesting parties, and governed by the ordinary rules of evidence which govern in other suits, and this, too, by force of the express language of the law regulating elections.

3d. That whenever a disability of a citizen to hold office is claimed to exist by virtue of the constitution, the prohibition must be made out by clear force of the terms used therein ; because disability to hold office necessarily implies disability of the people to elect that citizen to office. The question is really a question of the right of the people to vote for and elect that citizen. No intendment or implication is to be made in disparagement of the rights of the people, either by partizan blindness or by construction of words which can be reconciled with the continued existence of the rights of the people.

The pretence of the majority of the committee is, that the said Hatch was ineligible at the time of his election to the Senate, that is, on the 11th day of November, 1873.

Not a particle of legal evidence of such ineligibility on said day was either offered or introduced before the committee.

At the first meeting of the committee Mr. Snedikor, the contestant, was present, and offered in evidence a transcript from the clerk of the circuit court of the United States at Mobile, of a suit commenced, not against Hatch, but against other persons therein alleged to be his sureties as postmaster, on the 19th day of December, 1872, and of a judgment final by default, without any jury or trial, not against Hatch, but against said other persons who were sued, rendered on the 16th day of April, 1873, for \$1,179.71 and costs.

At the second and only other meeting of the committee, held last night, the contestant did not appear, but from among the majority of the committee another paper, called a transcript, was produced and offered as evidence against Mr. Hatch. By his counsel, Mr. Hatch objected to this paper as evidence against Mr. Hatch, and stated at length the grounds of this objection. It is almost, if not quite impossible to describe this paper as it appears. Fortunately, it is submitted among the other papers by the majority, and is thus before the Senate. The certificate of said circuit clerk to that paper bears date December 12, 1863, a day subsequent to the first meeting of said committee. The certificate of said clerk thereto is a very remarkable certificate, and is certainly a certificate which no law of the land authorized him to make or give. It purports to certify as to evidence in a cause to which said Hatch never was a party, and as to evidence in a cause in which the judgment itself proves no evidence was either proper to be adduced, or was in fact adduced. It purports to certify to a mere statement of a pretended account between Hatch and the United States, which account purports to be twice certified to by the Auditor of the Treasury of the Postoffice Department on different days. The first pretended certificate of said Auditor is dated December 9, 1872, and yet purports to embrace several items of dates later than its date. The second certificate of said Auditor is dated March 18, 1873—several days before said judgment, and yet shows a balance several hundred dollars less than the sum for which said judgment was rendered. This remarkable paper certified by said circuit clerk on December 12, 1873, is upon its very face, the mere "copy of a copy." All lawyers, who respect their books and the law of the land, must know that such a copy of a copy, such a paper, is not evidence against any citizen who did not sign or make it or admit its truth. There is no such admission here by Mr. Hatch.

Yet the majority of the committee, all of whom profess to be lawyers, held this paper of the said clerk to be evidence against Mr. Hatch, and against the right of the people of Hale county to elect him to the Senate on the 11th day of November, 1873. It was upon this paper that the majority based their report.

If the rights of a Senator and of the people who elected him can be destroyed upon such a paper as that of the

clerk of date of December 12, 1873, it can only be done by force of the doctrine openly asserted in committee by some of that majority, that the law-makers, when acting in a case of this kind, are not under the control of any law of the land, but are above the law which is the master of us all.

We therefore submit the following resolution :

*Resolved*, That Charles W. Hatch, who was elected Senator by the people of Hale county, and who has duly received the certificate of his said election, is entitled to his seat in the Senate.

JNO. W. DEREEN,  
B. F. ROYAL.

#### RESOLUTION.

Mr. Dereen offered the following resolution :

WHEREAS, Charles W. Hatch, in the contest of his seat in this body, yielded to and followed the advice of his counsel, Samuel F. Rice, before the Committee on Privileges and Elections : and, whereas, the lawyers of said committee have made a majority report against said Hatch ; and, whereas, the minority report is made by members of the Senate who do not profess to be lawyers ; therefore,

*Resolved*, That said Hatch shall be heard by his said counsel before this Senate, touching the merits or demerits of said majority and minority reports.

On motion of Mr. Terrell—

The resolution was laid upon the table.
